Covid-19 / Influenza-Like Illness / Sari

(Pan-respiratory Diseases)

Disease Reporting Unit	Barangay	District
Investigator	Designation	Date Investigated (MM/DD/YYYY)

From Endorsement?	Case ID	Date Endorsed/Reported (MM/DD/YYYY)
☐ Yes ☐ No		
Disposition of patient during interview: ☐ Still Admitted ☐ At home ☐ Died		

1. PERSONAL AND DEMOGRAPHIC INFORMATION

1.1. Patient Profile

Last Name:	First Name:	Middle Name:	Suffix:
Date of Birth (MM/DD/YYYY)	Age: _____ ☐ years ☐ months ☐ days	Sex at birth: ☐ Male ☐ Female	Civil Status: ☐ Single ☐ Married ☐ Widowed

1.2. Current Address in the Philippines and Contact Information

Lives in a closed setting?	☐ Yes, institution type (nursing home, mental institution, jail, etc.)	Name of institution
	☐ No (indicate home address below)	
House No./Lot/Bldg.	Street/Purok/Sitio	Barangay
Municipality/City	Province	Region
Contact number (cellphone number or telephone number)		Latitude:
		Longitude:
		Length of Residence:

1.3. Permanent Address (If different from the current address)

House No./Lot/Bldg.	Street/Purok/Sitio	Barangay	Latitude:
Municipality/City	Province	Region	Longitude:
Contact number (cellphone number or telephone number)			Length of Residence:

1.4. Special Population (indicate further details on exposure and travel history in Part 3)

Healthcare Worker?	☐ Yes, Name of facility: _____ Facility address: _____ ☐ No
Returning Overseas Filipino?	☐ Yes, Country of Origin: _____ ☐ OFW ☐ non-OFW ☐ No
Foreign National Traveler?	☐ Yes, Country of Origin: _____ Date of arrival (MM/DD/YYYY): _____ ☐ No

1.5. Employment/Educational Details

Current Status:	☐ Working ☐ Student		
1.5.1. Employment Details (if working)			
Employment Status: ☐ Employed ☐ Freelanced ☐ Self-employed ☐ Unemployed ☐ Retired	Occupation (specify): Name of Workplace:	Work Arrangement: ☐ Fixed on-site (Office) ☐ Fully Remote (WFH) ☐ Hybrid ☐ Field-based	Last day attended to work: (MM/DD/YYYY)

Address of Workplace (if fixed on-site, WFH, & Hybrid)

House No./Lot/Bldg.	Street/Purok/Sitio	Tel. No. 929-75-39	Barangay
Municipality/City	Province	Region	

If Field-based, give details:

1.5.2. Educational Details (if student)

Year Level	Section	No. of students in class	Schedule (days – time)	Last day attended (MM/DD/YYYY)
Name of School:				
Address of School				
House No./Lot/Bldg.	Street/Purok/Sitio		Barangay	
Municipality/City	Province		Region	

2. MEDICAL INFORMATION

2.1 Clinical Information

With signs and symptoms within the past 10 days? . Yes . No

First symptom experienced: _____ Date onset (MM/DD/YYYY): _____

Symptoms (Check all that apply)	IMCI Criteria For children 2 months to 5 years age	Comorbidities (Check all that apply, if present)
☐ Fever Temperature: _____ Duration: _____ days ☐ Cough ☐ Sore Throat ☐ Coryza ☐ Dyspnea/Difficulty of Breathing ☐ General weakness/ Fatigue ☐ Headache ☐ Myalgia ☐ Nausea ☐ Diarrhea ☐ Anorexia ☐ Others, specify: _____	☐ Breathing faster than 60 breaths/min (for infants < 2 months) ☐ Breathing faster than 50 breaths/min (for infants aged 2-12 months) ☐ Breathing faster than 40 breaths/min (for children aged 1-5 years old) ☐ Unable to drink or breastfeed ☐ Vomits everything ☐ Convulsions ☐ Lethargic or unconscious ☐ Chest indrawing or stridor in a calm child ☐ Requires hospital admission	☐ None ☐ Asthma ☐ Chronic Obstructive Pulmonary Disease (COPD) ☐ Pulmonary Tuberculosis ☐ Hypertension ☐ Diabetes ☐ Heart Disease ☐ HIV/AIDS ☐ Chronic Kidney Disease ☐ Cancer ☐ Others, specify: _____

Diagnosed with Pneumonia?

- . Yes
. Community-acquired
. Low-risk . Moderate-risk . High-risk
. Hospital-acquired
. No

Underlying conditions:

- ☐ Pregnant, LMP (MM/DD/YYYY): _____
☐ Post-partum (<6 weeks), delivery date (MM/DD/YYYY): _____
☐ Immunodeficiency
☐ PWD, specify: _____
☐ Others: _____

2.2. Medical Consultation and Admission Information

Have recently consulted a healthcare provider? ☐ Yes ☐ No

Order	Place of Consultation (can be Health Center/ alternative/ clinic or hospital)	Date & Time Consultation	Diagnosis	Healthcare Provider advised the case to be admitted in a hospital/facility	Admitted?
1st				. Yes . No	. Yes . No
2nd				. Yes . No	. Yes . No
3rd				. Yes . No	. Yes . No
4th				. Yes . No	. Yes . No
5th				. Yes . No	. Yes . No

Total no. of consultations: _____

If more than 5, write on the back

Health status at consultation: . Asymptomatic . Mild . Moderate . Severe . Critical

If admitted, fill out the following

Order	Place of Admission (Name of facility)	Address	Type of bed occupied (ICU,	Date Admitted	Date Discharged	Reason for Discharge
-------	--	---------	-------------------------------	---------------	-----------------	-------------------------

			Tel. No. 929-7550 (specify)			Died, HAMA, Financial, different diagnosis, OPD only, etc.)
1st						
2nd						
3rd						

2.3. Laboratory Information

Type of Specimen	Date Collected	Type of test done	Result	Date result	Interpretation

2.4. Radiology

Chest imaging done? ☐ Yes, date (MM/DD/YYYY): _____ ☐ No ☐ Unknown

Type of Chest Imaging Done	Results
☐ Chest radiography ☐ Chest CT ☐ Lung ultrasound ☐ None	☐ Normal ☐ Pending ☐ Chest radiography: Hazy opacities, often rounded in morphology, with peripheral and lower lung dist. ☐ Chest CT: Multiple bilateral ground glass opacities, often rounded in morphology, w/ peripheral & lower lung dist. ☐ Lung ultrasound: Thickened pleural lines, B lines, consolidative patterns with or without air bronchograms ☐ Other findings, specify _____

2.5. Vaccination Information

Vaccinated for COVID-19?	· Yes, Date of Last Dose (MM/DD/YYYY): _____ Number of Doses: _____	· No · Unknown
Vaccinated for Influenza within the past year?	· Yes, Date of Last Dose (MM/DD/YYYY): _____	· No · Unknown
Vaccinated for Pneumococcal disease within the past 5 years?	· Yes, Date of Last Dose (MM/DD/YYYY): _____	· No · Unknown

2.6. Medication

Did you take any of the following medication(s) prior to consultation?

☐ None ☐ Amantidine ☐ Oseltamivir (e.g. Tamiflu)
☐ Ranitidine (e.g. Flumadine) ☐ Zanamivir ☐ Others, specify: _____

Medication during the course of illness and/or admission	Antibiotics	· Yes, specify _____	· No	· Unknown
	Antivirals	· Yes, specify _____	· No	· Unknown
	Fluid Therapy	· Yes, specify _____	· No	· Unknown
	Oxygen	· Yes, specify _____	· No	· Unknown
	Intubation	· Yes, specify _____	· No	· Unknown
	Others, please specify: _____			

3. EXPOSURE & TRAVEL HISTORY

3.1. Exposure History

With history of exposure to animals (sick animals, dead animals, etc.) or animal enclosure prior to the onset of symptoms?

· Yes, Specify animal:

☐ Bats ☐ Camels ☐ Horses ☐ Poultry ☐ Migratory Birds ☐ Pigs ☐ Others, specify: _____

· No

· Unknown

With history of exposure to individuals with respiratory infection in hospital/community prior to the onset of symptoms? (e.g. household member, family member, classmate, neighbor, work colleague, etc.)

· Yes · No · Unknown

Please list locations where patient had possible exposure:

Date	Location (e.g., church, school, friend's house)	Address

Is/Are there any smoker(s) inside the household? · Yes · No · Unknown

Specify: _____

3.2. Travel History

With history of international travel to areas with known respiratory disease outbreaks?

· Yes, Inclusive Dates of Travel: _____ · No

Date of Arrival in the Philippines (MM/DD/YYYY): _____

Republic of the Philippines
QUEZON CITY HEALTH DEPARTMENT

Tel No. 8988-42-42 loc 1607

Email: cityhealth@quezoncity.gov.ph

Country of Origin: _____

With history of local travel to areas with known respiratory disease outbreaks?

· Yes, Inclusive Travel Dates to: _____

· No

Inclusive Travel Dates from: _____

Province/ Municipality/City visited: _____

4. CASE CLASSIFICATION, OUTCOME, AND STATUS

4.1. Case Classification

☐ Suspect ILI

☐ Suspect COVID-19

☐ Suspect SARI

☐ Suspect HPAI

☐ Probable COVID-19

☐ Probable SARI

☐ Probable HPAI

☐ Confirmed COVID-19

☐ Confirmed SARI

☐ Confirmed HPAI

4.2. Outcome

· Alive

· Died, Date (MM/DD/YYYY): _____

4.3. Health Status

· Still sick

· Recovered, Date (MM/DD/YYYY): _____

5. INTERVENTIONS AND CONTROL MEASURE

ACTIONS	DATE	REMARKS
☐ Case Management		
☐ Quarantine and Isolation		
☐ Prophylaxis		
☐ Referral to hospital		
☐ Field Investigation		
☐ Laboratory Confirmation		
☐ Sample collection		
☐ Program Mgmt. & Counter Measures		
☐ Search and destroy		
☐ Spraying		
☐ Disinfection		
☐ Vaccination		
☐ Others		
☐ Health Education		
☐ Response Coordination Mechanism		
☐ Coordinated with program		
☐ Risk Assessment		

6. CLOSE CONTACTS

6.1. Close Contacts

Total No. of Close Contacts: _____

**Please use Annex B for Close Contact Listing*

6.2. Close Contact Monitoring

**Please use Annex C for Close Contact Monitoring*

7. SURVEY AND OBSERVATION

Socio-demographic Profile (based on the total monthly income of household):

· Poor (<P12,030)

· Low (>P12,030 to <P24,060)

· Lower Middle (> P24,060 to <P48,120)

· Upper Middle (>P84,210 to <P144,360)

· Upper Income (>P144,360 to <P240,060)

· Rich (>P240,060)

Type of house residence

· Apartment

· Gated Subdivision

· Condominium

· Densely-connected houses

Overall condition of the house

· Excellent

· Good

· Fair

· Poor

Annex A. Case Definition

Tel. No. 929-75-39

Influenza-like Illness (ILI)

Suspect Case - Any person with an acute respiratory infection with ALL of the following:

- Measured fever of $>38^{\circ}\text{C}$;
- Cough or sore throat; AND
- With symptom onset within the last 10 days.

Severe Acute Respiratory Infection (SARI)

Suspect Case - ANY of the following:

- Any person older than five years old with ALL of the following:
 - Acute respiratory infection with history of fever or measured fever of $>38^{\circ}\text{C}$ and cough;
 - With onset within the last 10 days; AND
 - Requires hospitalization.
- Any child 2 months to 5 years of age with cough or difficulty of breathing **AND**:
 - Breathing faster than 60 breaths/min (for infants aged < 2 months)
 - Breathing faster than 50 breaths/min (for infants aged 2-12 months)
 - Breathing faster than 40 breaths/min (for children aged 1-5 years old)
 - Requires hospitalization
- Any child 2 months to 5 years of age with cough or difficulty of breathing and ANY of the following danger signs:
 - Unable to drink or breastfeed;
 - Vomits everything;
 - Convulsions;
 - Lethargic or unconscious;
 - Chest in-drawing or stridor in a calm child;
 - Requires hospitalization.

Probable Case - A person fitting the definition above of a "Suspect Case" fulfilling ALL of the criteria:

- With clinical, radiological, or histopathological evidence of pulmonary parenchyma disease (e.g., pneumonia or ARDS) but no possibility of laboratory confirmation either because the patient or samples are not available or there is no testing available for other respiratory infections;
- Close contact with a laboratory-confirmed case; AND
- Condition not already explained by any other infection or etiology, including all alternative clinically-indicated tests for community-acquired pneumonia according to local management guidelines.

Confirmed Case - A suspected case that is laboratory-confirmed.

COVID-19

Suspect Case –

- A person who meets either clinical OR epidemiological criteria:

Clinical Criteria:

- Acute onset of fever AND cough (influenza-like illness); OR
- Acute onset of ANY THREE OR MORE of the following signs or symptoms: fever, cough, either general weakness or fatigue, headache, myalgia, sore throat, coryza, dyspnea, nausea, diarrhea, and anorexia.

OR

Epidemiological Criteria:

- Contact of a probable or confirmed case or linked to a COVID-19 cluster; OR
- A patient with suspect, probable, or confirmed severe acute respiratory illness (SARI) as defined in the Philippine Integrated Disease Surveillance and Response (PIDSR) Manual of Procedures; OR
- A person:
 - With NEITHER clinical signs or symptoms NOR meeting epidemiologic criteria, AND
 - With a positive professional use OR self-test SARS-CoV-2 rapid antigen test.

Probable Case

- A person who meets BOTH clinical AND epidemiological criteria as stated above; OR
- Death, not otherwise explained, in an adult with respiratory distress preceding death AND who was a contact of a probable or confirmed case or linked to a COVID-19 cluster.

Confirmed Case

- Any individual, regardless of presence or absence of clinical signs and symptoms OR epidemiological criteria, who was laboratory confirmed for COVID-19 in a test conducted at the national reference laboratory, a subnational reference laboratory, and/or DOH-licensed COVID-19 testing laboratory; OR
- Any individual meeting suspect case criterion A or probable case criteria testing positive using rapid antigen tests in areas with outbreaks and/or in remote settings where reverse transcription polymerase chain reaction (RT-PCR) is not immediately available; provided that the antigen tests were done by a trained health professional AND satisfy the recommended minimum regulatory, technical, and operational specifications set by the Health Technology Assessment Council.
